

Programs to be written to Fair Record.

1. Write a program to check whether a number is odd or even
2. Write a program to find the largest of three numbers
3. Write a program to print the prime numbers within a range
4. Write a program to print the Fibonacci series within a limit
5. Write a program to check whether a three-digit number is Armstrong or not
6. Write a program to read 3 marks, find its average and provide grades as follows using switch statement (90% < - A grade, 80% < - B grade, 70% < C grade, 60% < - D grade, 50% < - E grade, all the rest - failed)
7. Write a program to find the factorial of a number using recursion
8. Write a program to sort an array
9. Write a program to find the transpose of a matrix
10. Average of three numbers using the command-line argument
11. Area of equilateral, isosceles, and scalene triangles using method overloading
12. Write a program to compare the area of rectangles using objects as parameters
13. Write a program to add two complex numbers
14. Write a program to implement inheritance – Create a class 'Employee' with data members - Name, Age and Basic pay. Create a subclass 'Programmer' with data members - Department and Bonus. And also a method TotalSalary() which calculates the total salary(Basic pay + Bonus) . In main method, create object for only the subclass and display the following details - Name, Age, Department, Total Salary
15. Write a program to create an array of objects (ie. Create a Student class with roll no., name, mark1, mark2 and mark3). Now find the total marks and average marks of each student.
16. Write a program to override a method 'greatest()' for finding the greatest of two numbers and greatest of three numbers
17. Write a program to find the area of a circle and sphere using interfaces
18. Write a program to print 'hai' and 'hello' using threads
19. Write a program to throw an ArithmeticException if the value of a variable 'k' is less than 10
20. Write a program to implement Packages.
21. Write a program to implement simple client server application.
